The Presbyterian General Assembly sustained the appeal in the Briggs case by a vote of 383 to 116. Thus Brother Briggs is set down upon as he should have been.

Refusing to resign at the request of Supreme Chancellor Blackwell, of the Knights of Pythias, a meeting of the Supreme Council has been called for Chicago June 10, when S. K. Wiley, Supreme Master of the Eschiquer, will be dishonorably discharged. It was reported some time since that \$70,000 of the Knights' money was in jeopardy, and an examination of the books of Wiley, who is also Mayor of Wilmington, Del., resulted in the demand for his retirement.

Shop Isaac W. Joyce, of the Methodist church, created a great deal of comment at Chattanooga, Tenn., by his conduct last Sunday. He went over to the neighboring town of Cleveland, Tenn., Saturday of last week to dedicate a colored Methodist church. While there he accepted the hospitality of the colored pastor of the church, who is as black as the shades of night. The Bishop slept in one of the beds of the colored man and ate at his table. His conduct created a great sensation at Chattanooga, and social ostracism may be the result.

SECRETARY CARLISLE

Cannot Give His Time to Promiscuous Callers Any Longer.

And Hence He Follows the Example of President Cleveland.

The President Takes a Rest and May Give the Public Printer's Place to Some One Not Looking For it.

Commissioner of Pensions Will do Away With Inefficient Chiefs.

Comptroller of the Currency Will Put a Stop to National Banks Mixing Up in Wild-Cat Schemes.

Washington, D. C., June 2, 1893.

Secretary Carlisle has made it a rule to see everybody that called on him at this office until this week, when after much deliberation he came to the conclusion that his promiscuous callers were taking up so much of the time that should be devoted to weightier matters that it was his duty to deny himself to general callers, and an announcement to that effect was made. It is easy enough to see Secretary Carlisle if your business is of a public nature, but otherwise you cannot. Theoretically it seems hard on some of his callers, practically there was no other course left for him to take. In the present state of the country the official duties of the Secretary of the Treasury are of the highest importance, more depending directly upon him than upon any other member of the cabinet, and John Griffin Carlisle has never shirked or neglected his duty, although he has often found it, as he probably does in this case, more or less painful to perform.

Democrats were surprised when President Cleveland left Washington for a few days of rest and recreation at Hog Island, Va., without appointing a new Public Printer, as the term, of Mr. Palmer, the incumbent, expired several weeks ago. Whether right or wrong the failure of any one of the score of applicants for this office to get the appointment is taken by many to mean that none of them will get it, but that it will eventually go to some man who has never made or probably even thought of making an application for it. It has been rumored for several weeks that President Cleveland has been making quiet inquiries to some of his callers about various men who had been suggested to him for the place.

Commissioner of Pensions Lochren has decided after mature consideration, that to carry out his policy successfully in the Pension bureau he must have new chiefs in every division in the office, and the present chiefs, some of whom are notoriously inefficient, will all have to go. Some of them who have made fairly good records will be allowed to remain as clerks. Some of these chiefs, although they are Republicans, have influential Democrats trying to save their official heads, but Judge Lochren says he intends to put the office upon what he considers a strictly business basis and that no amount of influence will change his purpose.

That "inexperienced young man," Comptroller of Currency Eckels, is very vigorously administering the business connected with his office. He says he intends to put a stop to national banks being used to bolster up wild-cat financial schemes that would have no standing or credit whatever were it not for their supposed connection with national banks. Nobody knows better than Mr. Eckels that it is a big contract that he has undertaken, but if he succeeds he has undertaken a popular man with the solid business interests of the country which are naturally opposed to the money-mongers financial concerns that always do so much to demoralize legitimate business. Mr. Eckels emphasized his position on this question by telling Mr. E. A. Means, the President of two North Dakota banks that failed this week, who called on him to say that he expected both banks would resume business, that the banks would not be permitted to resume, and further that no national bank with which (Means) was connected would be allowed to begin business hereafter.

How many of the Republican papers which have been criticizing Secretary Carlisle for removing Republican chiefs of division and asserting that their Democratic successors were incompetent, will have the manliness to print latest order, directing the examining board of the Treasury department to increase the minimum for testing the fitness of applicants for appointment as chiefs of division from 75 to 80 per cent?

Secretary Gresham has received no official communication from the Chinese government giving even the slightest intimation of the intention of that government to adopt retaliatory measures towards Americans residing in China because of the Geary exclusion law, notwithstanding numerous more or less sensational statements to the contrary. The opportunity was too good for the sensation mongers to lose; hence the rumors.

As was generally expected, the General Assembly found Dr. Briggs guilty of lechery.

The Devil Still Leads.

The great gates of the World's Fair swung on their hinges last Lord's Day, and "the greatest show on earth" was open to visitors from all parts of the world. CHRISTIAN ENDEAVOR.

Topic for the Week Beginning June 11.
Comment by Rev. H. D. Doyle.

Topic—Our young lives for Christ. Eccl. xii, 1. Tim. ii, 15. 1 Tim. ii, 15.

No better introduction to our topic could possibly be made than the quotation of the reference Eccl. xii, 1, "Remember now thy Creator in the days of thy youth, while the evil days come not, nor the years draw nigh when thou shalt say, I have no pleasure in them." These are very familiar Scriptural words and are often repeated to the young and form an appropriate introduction to the topic, "Our young lives for Christ."

1. The young should be instructed in Christian truths (1 Tim. ii, 15). In urging Timothy to continue in the things which he had learned and been assured of—namely, Christian teachings—Paul reminds him that he had from a child known the Holy Scriptures. This was true, for in chapter 1, 6, we learn that Luke, the grandmaster of Timothy, and his mother, Eunice, had both been Christians before him. It was natural, therefore, that Timothy should know the Scriptures. It was also well for him to hold to it. It had been his mother's treasure. It was her legacy to him. There was reason indeed that he should prize it highly and not neglect it. It was also able to make him wise unto salvation because it was God's word. This was a still greater reason why he should prize it and continue in it. All young people should know God's word. Parents should instruct their children in it. But if they do not, they should know this knowledge for ourselves for two reasons: 1. Youth is the time to learn it. It is easier then to do so. It is easier to retain it. 2. It is God's word and can save the young as well as the old need salvation.

2. The young should practice Christian truths (1 Tim. ii, 15). Paul exhorts Timothy not to let any man be ashamed of his youth, but to be an example in word, citizenship, love, spirit, faith and purity. Timothy was a young man that he in the ministry, yet this need not hinder him in his labors unless he acted foolishly and vainly. Because we are young is no reason why we should not profess and serve Christ. The world respects youthful Christians perhaps even more than older ones if the profession is consistently carried out. Our young lives should indeed be given to Christ. It is the best thing to serve Christ. He wants us to serve him. We can do more for him than at any other time. Let us therefore come to Christ's word and see what He would have us do, and then let us do it. Knowing is not enough; we must act upon our knowledge. If you are a Christian, it is proved by your actions that you are a sincere Christian, and no one will think more of you because of your youth—only more.

Christian Endeavors in India.

The town is Madanapalle, in the Madras presidency. The white ballistics are hitched to the missionary wagon, into which we clamber for a ride or so from the mission bungalow to the center of the town. Beside the carriage on each side march a row of Endevors, Ephraim and Isiah, Isaac and Gabriel and Jacob and many other Scripture worthies, forming such an escort of Old Testament characters as we never expected to enjoy.

For awhile they march along in silence, but as we approach the center of population our Endevors change their cymbals and strike up a gospel song in Telugu. As they come to the more thickly peopled streets their singing becomes more vigorous, and before they get to the place of meeting they divide into three or four bands and march through the leading streets of Madanapalle, singing at the top of their lungs the gospel invitation.

Slowly from street and alley and courtyard the crowd begins to gather, attracted by the singing, and all converge to a central spot under a spreading banyan tree.

A whitewashed wall on one side of the street serves as a white curtain for the magic lantern pictures, and in front of this the expectant people gather.

Now the preliminary services are over, and pictures from the life of Joseph are thrown upon the screen, while one of the missionaries explains, apparently greatly to the edification of the interested throng, the thrilling scenes in the life of Egypt's premier. Then a native pastor takes up the story and sends home the lesson.

Another hymn is sung, and another worker, this time one of the Christian Endeavorers, who is also a geologist, explains and expounds the life of Christ as the scenes are thrown upon the wall. And so on for more than an hour the gospel is proclaimed to eye and ear. Scarcely any one leaves the circle of listeners. No one yawns, no one seems weary, but in stillness and reverence this audience of 500 heathen listen to the word of life. Who can tell what good seeds are there implanted, which may bring forth fruit some a hundredfold.

—Rev. Francis E. Clark in Golden Rule.

All women who are overworked, "run-down," or debilitated, need just one medicine—that is Dr. Pierce's Favorite Prescription. It's a broad statement, but facts bear it out. That is the fact: If you suffer from any of the pains, disorders and derangements peculiar to your sex, it relieves and cures. It invigorates the system, improves digestion, enriches the blood, dispels acids and poisons, brings renewed sleep, and restores health and strength. All the chronic weaknesses, irregularities, and disturbances known to "female complaints" are completely and permanently cured by it. These few facts, and they're strong enough to warrant the doctors in guaranteeing their remedy. If it fails to benefit or cure, you have your money back. No other medicine for women is sold on such terms. That proves that nothing else can be "just as good."

DECORATION DAY.

Flowers Strwn Alike Over Graves of Rich and Poor, Young and Old.

A DELIGHTFUL DAY.

Last Tuesday was the day set apart by the nation and State for decorating the graves of soldiers of the Union, who died in the service. In connection with this, by the request of the officials of Maple Cemetery, all persons were directed to decorate the graves of their dead. In consequence, from early morning until late in the afternoon, there was a continued line of vehicles going to and from the cemetery. We were called upon to approximate the value of the flowers given in memory of the dead, we would place it among the thousands. But few graves were neglected. Some good women whose home the death resper had been entered, gathered flowers and laid them on unknown mounds. It was a sweet expression and forl there is a reward. Those living far away, and whose dear ones were buried here were not forgotten; the old man, the young woman, and the tiny babe who rested there, were alike remembered. The entire cemetery was a floral beauty, and many were the happy recollections to those thus remembering their dead.

Sixteen Minutes' Shoes.

When one looks back a hundred years and thinks of the days of tedious traveling it took to make the journey from Boston to New York, and then calls to mind the magnificent new compound locomotives which are capable of drawing a train of cars at the rate of between 75 and 100 miles per hour, he is struck by the wonderful progress which has been made in mechanical science during the current century. Yet as great as has been the change in our modes of locomotion it has been no greater than that which has occurred in other fields. For instance, it was but comparatively a few years ago when Henry Wilson, afterwards Vice President of the United States, was laboring at the shoe bench spending hours, and probably a day or more, as did all his fellow workmen throughout the world, in making a single pair of shoes; now machines for doing this work have so highly developed that last week a pair of shoes was actually made in Lynn, from beginning to end, including the sewing on of the buttons and the packing of the pair in a box, in the almost incredible short time of less than 16 minutes. The compound locomotive and the 16 minutes' shoes are not exceptions of what has been accomplished throughout the entire list of mechanical industries.—Manufacturers' Gazette.

The roosts should not be high, especially if the birds are large and heavy. By observing hens when they go on the roost at night, it will be noticed that when the roost is high, it is with difficulty that some of them reach it and secure positions. Before all the members of the flock get settled there will be several falls from the perch, due to the general scramble for favorable places, and when leaving the roost in the morning the heavy birds come to the floor with more force than is beneficial, the result being leg difficulties and sometimes internal injuries. There is very little difference in the amount of care or food required for growing calves or hogs, the matter being the quality. It is evident then that it pays to raise the kind that sells the quickest and brings the best prices

FOR STATE SENATOR.

We are authorized to announce Hon. J. P. Gay, of Clark county, as a candidate for Senator of this district composed of the counties of Clark, Bourbon and Montgomery, subject to the action of the Democratic party.

Cot. J. H. Holloway, of Clark county is a candidate for State Senator from the district composed of Bourbon, Clark and Montgomery counties, subject to the action of the Democratic party. Your vote and influence respectfully solicited.

The people of the Northern States, notwithstanding, they make a great to-do over what they term the cruelty the negro in the South, will not tolerate the meanness of that race. On last Saturday 25 unmasked and in broad day-light went to the jail at Decatur, Ill., a city with a population of 22,000, and demanded the keys. They were refused them. They broke down the doors and took from his hiding a negro scoundrel, Sam Bush, a Mississippi negro, and hung him to the first electric light post. He was charged with outraging two white women. Law is too slow in its process for such dire cases, and these Northern Republicans only repeated what has become necessary, time and again, in the South.

Kentucky Press Association—Another Annual Failure.

The Press Association had its meeting in Louisville. It virtually did nothing of business interest to the craft. After the annual election of officers time was spent in preparing for pleasure trip to the World's Fair. The World's Fair managers were glad to have them come. They wanted his Trojan Horse advertised by the Kentucky press. They also wanted their influence favoring the non-observance of the Lord's Day. The remuneration for this was 50 cents a head. It is hoped our Kentucky editors will be honest and true to their country's laws and their Bibles. Mt. Sterling would be delighted to entertain the Kentucky Press Association when it has any business to attend to. Until its meetings become a failure and is not worthy the hospitality of any people.

A handsome and popular widower, who does not live a hundred miles from Mt. Sterling, left Saturday in a manner that created a suspicion in the minds of his friends. When asked where he was going, he replied, "to Crab Orchard." Monday an intimate bachelor friend left to join him, saying he too was going "to Crab Orchard." The movement of these two gentlemen, who are not generally so secretive, aroused a deal of speculation among their friends. Report is that they will not go so far as "Crab Orchard," nor is their destination the famed Sanitarium; but that our widower friend will have a surprise in store for his family and friends, and that he will return with a beautiful bride. His many good friends are watching developments, and are prepared to give him a rousing reception when he comes in.

The heavy rains are doing much damage to the wheat crops in the low lands. No rust has yet appeared, but the straw is not heavy enough to hold its own weight.

The Union Sunday School Convention will be held with Antioch Church next Friday, June 9.

GRADED SCHOOL.

Closed its Session June 1st.

Four graduates, Misses Sula Scott, Martha Gay, Doyle Procter and Mary Lillie Stephens, having finished the prescribed course, and received diplomas. Seven others, who had entered the second grade of the High School course, and who had not finished, were awarded certificates. They were Misses Gracie Howell, Elma Land, Annie Lizzie Ratliff, Mary Thomson, Maggie Comdoy, Katie Diamond and Gussie Punch. These young ladies stood a rigid examination, each one acquitting herself with credit. The Graded School is generally looked upon as the poor people's school, the object of which is to impart barely enough knowledge that the pupil may understand and be understood. Hence it is that men who are called great and who have achieved fame by persistent effort in biographical sketches are referred to as having attended the common schools, and his superior attainments have been the result of a continued delving. Not so with the Mt. Sterling Graded School. Its course has a broad foundation for a collegiate education, in fact, when the course of this institution has been completed a pupil is fitted for any life's avocations, and only professionals are in need of additional training. It will be remembered that this school a few years ago was only a school by name, and never did it have a real beginning until Mrs. W. F. Hibler assumed its Superintendency. Now they have a corps of eight teachers, beside the principal, and the course is as follows:

Primary grades are instructed in reading, spelling, writing, numbers and occasional oral lessons in hygiene, botany, language lessons and ethics. The intermediate grades, or those finishing the common school course, have, in addition to the primary studies, geography, history and grammar.

The High School course begins with the study of algebra, higher arithmetic, physiology, Latin, American literature, rhetoric and easy experiments in physics. The second year the High School course embraces algebra, geometry, English literature, botany, rhetoric and physical geography.

The studies prescribed for the Advanced Classes are geometry, Latin, physical zoology and universal literature.

In after years, unless other arrangements can be made there will be no more graduates. Only certificates will be given, and they to those finishing the course prescribed for the second year of the High School grades. The entertainment was a delight to every one attending. It consisted of the opening prayer by Rev. A. J. Arlick; Music by Lexington Mandolin Club; Address by Rev. H. D. Clark; Hibbard's Speech by L. T. Chiles, President of the Board; Presentation of Diplomas, H. R. French; Benediction by Rev. E. E. Bomar.

The young ladies thus sent out by this school will enter other schools and continue their studies.

The cutworms are reported as doing much damage to the crops set out. There is considerable complaint of corn not coming up, and many have planted the second time. If the liver be inactive, you have a bilious look, if your stomach be disordered you have a dyspeptic look and if your kidneys be affected you have a pinched look. Secure good health and will have good looks. Electric Bitters is the great alterative and Tonic acts directly on these vital organs. Cures pimples, blotches, boils and gives a good complexion. Sold at W. S. Lloyd's drugstore, 50 cents per bottle.

Who Reads an Advertisement Anyhow?

The following item will show the results of advertising, and at the same time dispel any doubts that one may have about getting a place to stay in Chicago, during the Fair. Mr. E. E. Hale of Washington, Ohio, inserted an advertisement in two Chicago papers on Sunday, May 21, asking terms of board for himself and wife for a month during the Fair. On Monday he received 149 replies. By Tuesday noon he had received 449; at 2 p. m. Tuesday, 1,093; Wednesday at 8 a. m. 1,218; at 10 a. m., 1,347; at 2 p. m., 1,367 and at noon on Thursday he had received 1,434 replies to his advertisement. On one of those days he received 1,027 letters, of which 664 came in one mail.

Space has a Value.

Some people act as if they think that it does not cost anything to put a line of type in a newspaper. It does, though, and if for the benefit of an individual, he should be willing to pay for it. If no one else pays for it the owner of the newspaper does. Space in a newspaper is the owner's stock in trade. He can use more afford to give it away than a banker his gold and silver, or a merchant his dry goods, or a grocer his groceries, or a haberdasher his haberdashery, or a baker his bakeries, or an oysterman his oysters. He has it for rent, and he can no more afford to furnish it free than a landlord can furnish rent free.—Bourbon News.

How do you do when you buy shoes or clothing? Don't you go to the place (if you can find it) where they tell you that you may wear the article out, and then, if you're not satisfied, they'll refund the money? Why not do the same when you buy medicine?

Dr. Pierce's Golden Medical Discovery is sold on that plan. It's the only blood-purifier certain and effective that it can be guaranteed to benefit or cure, in every case, or you have your money back.

It's not like the ordinary spring medicines or sarsaparillas. All the round, it cleanses, builds up, and invigorates the system. If you're bilious, run-down, or dyspeptic, or have any blood-taint, nothing can equal it as a remedy.

Pronounced Hopeless, Yet Saved.

From a letter written by Mrs. Ada E. Hurd, of Groton, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally terminated in consumption. Four doctors gave me up saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones gone. My husband was advised to get Dr. King's New Discovery for consumption, coughs, and colds. I gave it a trial, took in all eight bottles; it has cured me and thank God I am now a well and hearty woman." Trial bottles free at W. S. Lloyd's drugstore, regular size 50 cents and \$1.00.

Shiloh's Vitalizer is what you need for Dyspepsia, Torpid Liver, Yellow Skin or Kidney Trouble. It is guaranteed to give you satisfaction. Price 75 cents. Sold by T. G. Julian, Jy-1

An Ambitious Boy

Little Boy: "Papa, may I study eloquence?"
 Proud Papa: "Indeed you may, my boy, if you wish. You desire to become a great orator, don't you?"
 "Yes that's it."
 "And some day, perhaps, have your voice ringing through the halls of Congress?"
 "I shouldn't care for that. I want to be an after-dinner speaker."
 "Ah, you are ambitious for social distinction?"
 "No, I want the dinners."—Street & Smith's Good News.

A blow with a hammer on the thumb, crushed it and the nail turns black and comes off. The thumb swells and is painful and the man "lays up." Now look at another case. The thumb was smashed and the same but the man was not laid up an hour! He had a bottle of Dr. Fessenden's Golden Relief. He poured some into a cup and dipped his thumb in it as soon as hurt. It is now covered with a thin piece of cloth and kept wet with the liquid. He works as usual. It is not more than a few days. He will work with it right along and in a day or two it will be well. Inflammation cannot exist where it is applied, any more than the morning dew can continue under the bright sun rays. Used externally and internally and cures colic, summer complaints, flux, dyspepsia, etc., etc., also 5 drops on a small lump of sugar once in two hours cures sore throat and consumption. In fact it cures any disease that has inflammation in it. One tablespoonful dose cures La Grippe, Nerve dyspepsia, Sore and certain. Money refunded if satisfaction not given. Take a bottle home to-day.

The World's Fair and American Railways.

The Queen & Crescent Route widely known as the road running the "Finest Trains in the South," is in the field to carry everybody from the South to the World's Fair at Chicago. T. V. & Ga. railroad, and proceeds north over the beautiful Cincinnati Southern, through the grandest natural scenery and most attractive historical country in the world, to Oakland, where another magnificent Pullman car is received, coming from the Richmond & Danville System from Charleston, S. The Women to the Rescue.

At last there are symptoms on every hand that the women of the land are beginning to see what they can do towards securing—that for lack of a better term—we will call public cleanliness. There is a committee of women in Springfield, Mass., who are going to see to it that the men whose duty it is to purify the public parts of the city, do their duty. They have been looking into certain filthy and offensive back alleys, and have resolved that they shall be cleaned! and when "she will she will, you may depend on it." Let the women consider themselves in their divine right, as mothers of the community, authorized to pry into and spy into every filthy alley, and then let them "cry aloud and spare not" till they are cleansed. There is life and health in it.—N. Y. Independent.

Modesty is the lowest of the virtues, and is a confession of the deficiency it indicates. He who undervalues himself, is justly undervalued by others.—Hazlitt.

THE ADVOCATE.

CHEROKEE, I. T. May 30, 1893.
DEAR ADVOCATE:

Having a few days of leisure time after accomplishing my business at Wichita, I concluded I could not spend it more pleasantly at any place than in the Indian country. Hence I struck out for what is known as the Cherokee strip, and other parts of the Indian nation which are attracting at present more than ordinary attention. Yet there are comparatively few people excepting those residing on the border, or that have travelled through the territory, who know anything about this great and much talked of country. It is my purpose in this letter to enlighten the numerous readers of your excellent paper, to some extent, upon this subject and give them such information as has come under my observation. The principal topic of discussion at all times and places since I crossed the Mississippi has been, "When will the Cherokee Strip be opened for settlement?" and the answer to this question is no nearer a solution now than it was three months ago, and the date of opening the strip which contains more than 6,000,000 acres of some of the finest land on the American continent, is, as yet, uncertain. The territory has yet to be laid off into counties, county seats established therein, and there are 70 allotments of homesteads to be made to the original Indian settlers and confirmed by the Cherokee Council, and as there are over 200 claims among the Indians for these claims, it complicates matters very much and the President cannot leave his proclamation until the conflicting interests of these claimants are adjudicated and confirmed.

The department seems to be rushing matters as fast as possible, and the Secretary of the Interior thinks the land may be opened by the 15th of September. In selecting claims persons will be governed by the same rules and regulations applicable to the opening of Oklahoma Territory, that is, each man to select his own claim, which means that the one having the fastest horse will get the best claim, many of which will be worth from \$5,000 to \$8,000, when the title is perfected. There are now from 7,000 to 10,000 people on the border awaiting the opening of this great country, many of them living in wigwags, some in tents and others in holes dug in the ground. Many of them are now already training their horses for the great race.

If the Cherokee nation should fail to make a satisfactory adjustment of the 70 allotments to those entitled to receive them by September 3, in that event, there will have to be additional legislation by Congress, which will postpone the opening of the strip indefinitely.

Oklahoma Territory as organized by Congress includes all the Indian Territory except the five civilized nations (Cherokees, Seminoles, Creeks, Choctaws and Chickasaws), and a few small tribes in the Northwestern part of the Territory, making the area of the Territory 23,000,000 acres less than one-half of which has been opened to settlement, leaving over 12,000,000 yet to be settled. In this Territory the Government, by treaty stipulation, has already secured the reservations of the Pawnees, Tankawas, Kickapoo, Kiowas, Comanches and Wichitas, and the Commissioners are now treating with the Poncas, Otoes, Missouris, Kaws and Osages, and their lands are bound to follow in the near future. When this is accomplished Commissioners will be sent to treat with the five civilized tribes for their lands. It is only a question of time, and that time not very far distant, when not only Oklahoma, but the whole of the Indian Territory, will become settled and form one of the grandest States in the American Union, and larger than any of the States, except Texas or California.

The soil is generally fertile and its production is not surpassed by Kentucky in anything except hemp, tobacco and bluegrass. It has a wonderful climate. The air is pure and dry, the summers long, the winters short and very mild, and stock needs very little, if any, shelter.

The Cherokees are said to be the wealthiest people upon the earth, and live under a form of government similar in many respects to that of the States. They have a penitentiary, an asylum for the insane, an orphan's home, a male and female seminary, costing \$200,000, from which many of both sexes graduate with great honor. They execute the criminal laws more rigidly than we do in Kentucky, and

punish a murderer by hanging on the gallows.

The Choctaw government is similar to that of the Cherokees, except those convicted of murder are shot by the Sheriff of the county where the crime was committed. For all other crimes the criminal is whipped from 10 to 100 lashes on the bare back, at the whipping post, according to the magnitude of the crime.

The Chickasaws also use the whipping post, but murderers are hanged the same as in the Cherokee nation.

The Choctaws and Chickasaws both have educational institutions, about equal to the Cherokees. During the past year the Choctaws have erected three magnificent college buildings in different parts of the nation. The Seminoles have recently erected an orphan school at a cost of \$80,000.

In the Creek nation there are many institutions of learning that would be an honor to any of the States, some of which were established by missionaries many years ago, and are under the control of the Baptists and Presbyterians, and in nearly every town and neighborhood in the Territory good schools can be found.

About one-eighth of the western part of the Cherokee strip will be sold to actual settlers at \$2.50 per acre, one third, including the middle portion, at \$1.50 per acre, and the balance at \$1.00 per acre, with interest at 4 percent until paid. All kinds of fruits grow as well here as in Southern California, and the Territory is the stock raiser's paradise.

Oklahoma has better crops of every description than I have seen since I left home. The farmers are in the midst of wheat harvest and corn is waist high, and plenty of the finest fruit and a bountiful supply of vegetables. There has been no want of rain at any time during the season.

"STANDS EVERY KIND OF CRITICISM."

Some men think that ready-to-wear clothing cannot be as well and carefully made as suits that are made to order. That may be true in some cases—probably many. But it is well to remember that a house with a reputation is jealous of its kind and cannot afford to turn out goods that won't STAND EVERY KIND OF CRITICISM. Our ready-to-wear clothing is equal to custom work. The material of every garment we sell is chosen by ourselves, and made for our special trade. When WE are satisfied YOU will surely be. Not the least satisfactory thing will be the price.
